WORK EXPERIENCE

Manager Citi Service Center

01/2019 – Present

Pune, India

Achievements/Tasks

- Abinitio ETL projects to Spark scala projects migration of Private Bank data platform and batch jobs. As a developer i am responsible for Designing the new process flow in Spark (Scala) inline with the current ETL process flow and handling End-to-End quality delivery under Agile process.
- As a part of Engineering Excellence team, created a CI pipeline for Abinitio ETL development environment. This helps to identify the compilation/integration errors and mandates the code reviews and logs the validation results/review reports into BitBucket. It provides one-click packaging of objects after check-in.

Assistant Manager Citi Service Center

04/2016 – 12/2018

Pune, India

Achievements/Tasks

- Abinitio ETL development for Private Banking domain. End-to-End responsibility from development till production executions of tasks/CRs.
- Part of Engineering excellence team which automates, standardizes and refines the development life-cycle in order to achieve the SMM level-3 or more.

Associate - Projects Cognizant

10/2014 – 04/2016

Achievements/Tasks

- Abinitio ETL development and L3 support for Barclays Client.

Senior Systems Engineer Infosys Limited

07/2011 – 10/2014

Achievements/Tasks

- Abinitio ETL development and L3 support for Aetna Client.
